

Technology investment decision brief

Illustrative platform choices / assumptions made explicit

DECISION

Retain or modernise

HORIZON

Scope-dependent

COST LENS

Whole-life effort

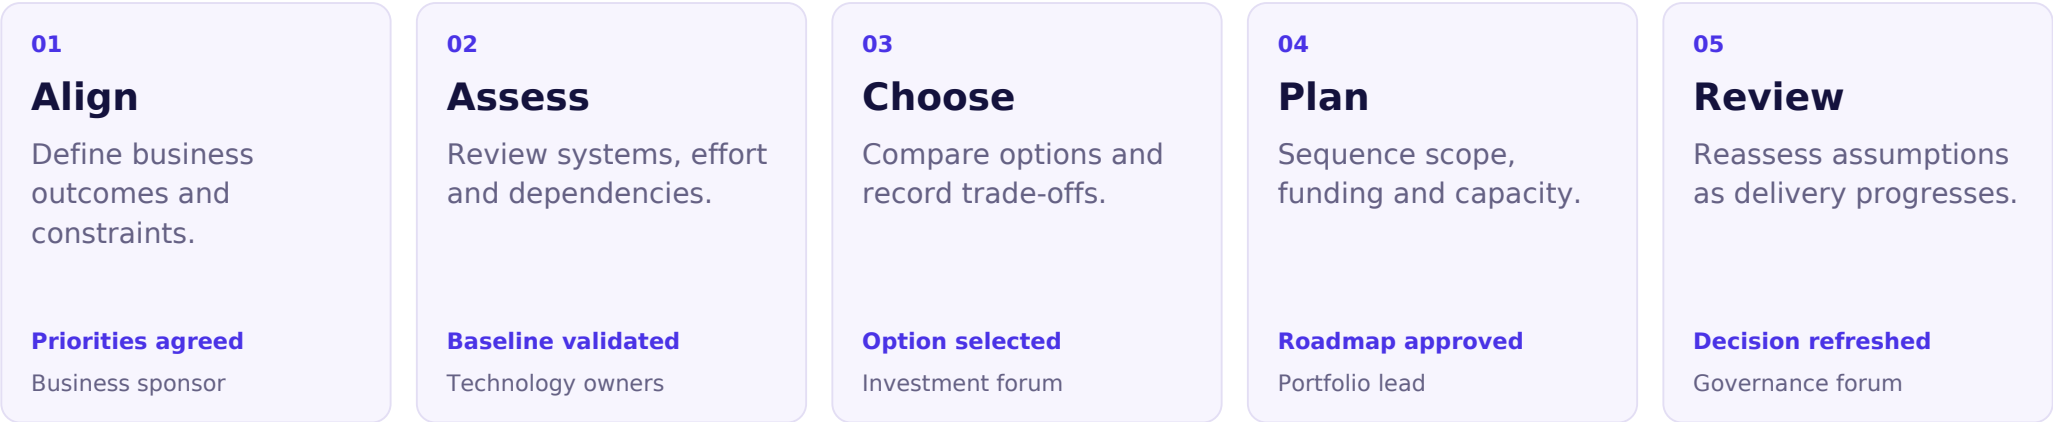

Option	Business fit	Key dependency	Decision evidence
Retain + improve	Preserve current operations	Current platform headroom	Constraint + cost assessment
Modernise selectively	Improve priority journeys	Integration + migration capacity	Target design + delivery plan
Replace core platform	Address structural constraints	Change readiness + cutover	Scenario tests + transition risk
Use a partner service	Access specialist capability	Service ownership + exit route	Service model + due diligence

A shortlist needs a business case, not only a feature list.

The sample shows a comparison structure. It does not recommend a specific platform or vendor.

Implementation & governance blueprint

Technology Strategy / indicative sequence, gates and accountable roles

GOVERNANCE / DECISIONS, OWNERS AND EVIDENCE

Decision	Accountable role	Evidence
Strategic priorities	Business sponsor	Outcomes and assumptions
Architecture direction	Architecture owner	Principles and trade-offs
Investment decision	Investment forum	Whole-life effort and risk assessment
Roadmap changes	Portfolio owner	Dependency and change impact log

Timing and final roles follow the scope, dependencies and readiness. No delivery result is implied.
